

INTERVENTIONAL CARDIOLOGY

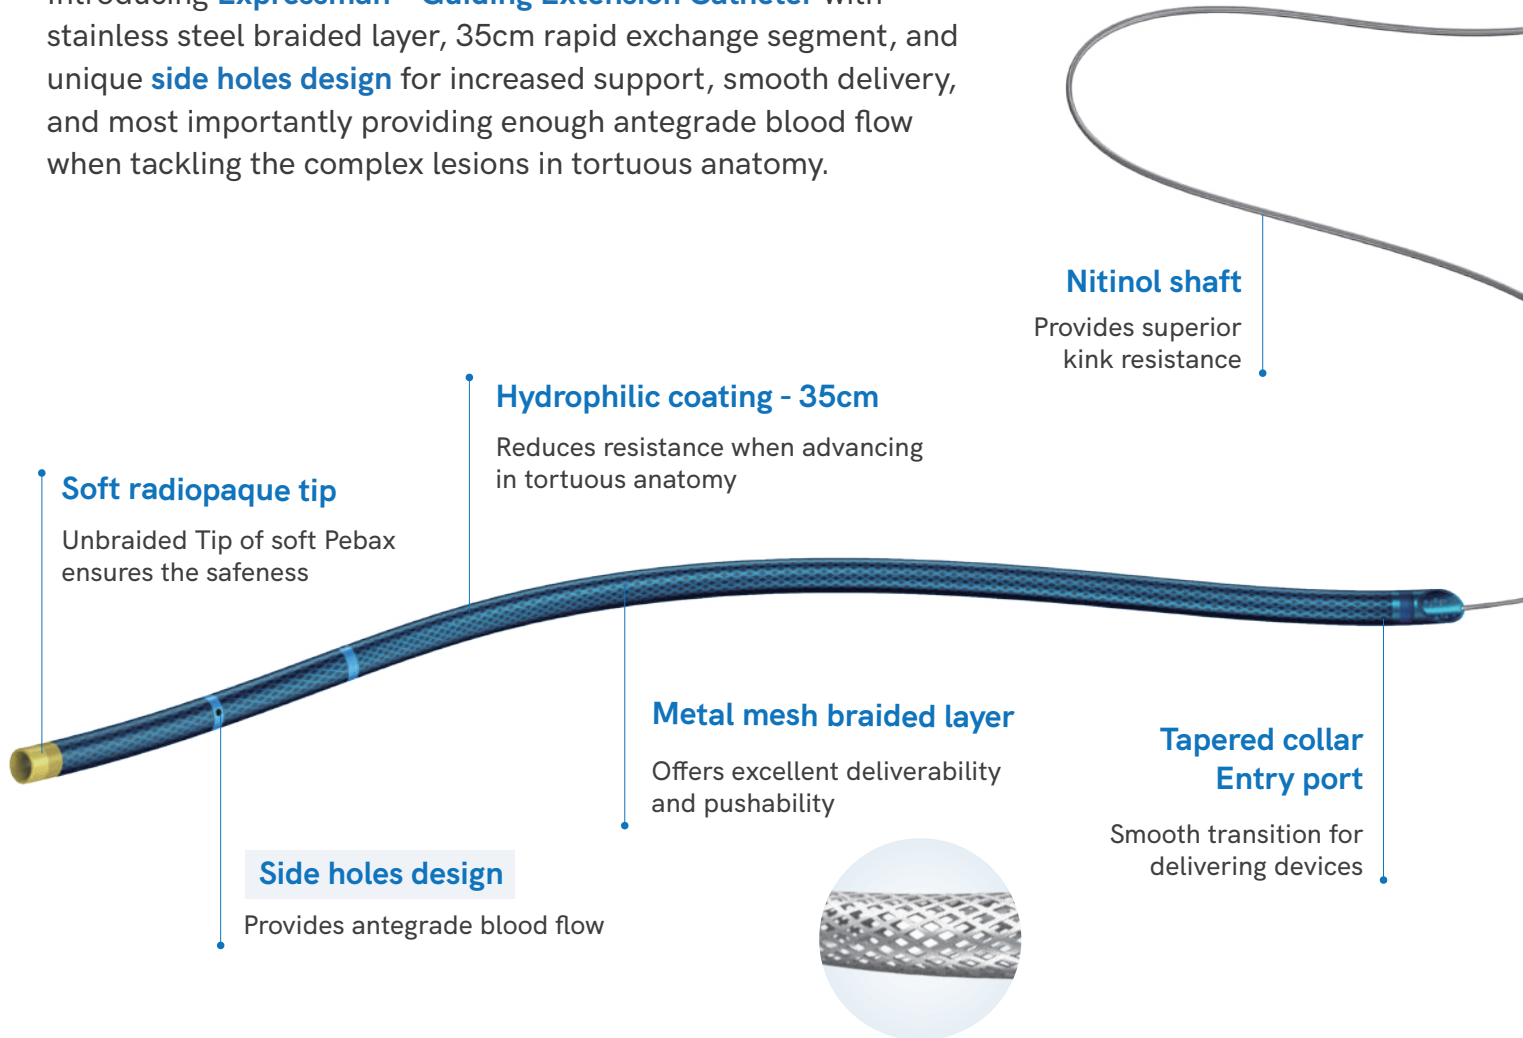

# Expressman<sup>™</sup>

## Guiding Extension Catheter

# ONE STEP CLOSER TO SUCCESS

Introducing **Expressman™ Guiding Extension Catheter** with stainless steel braided layer, 35cm rapid exchange segment, and unique **side holes design** for increased support, smooth delivery, and most importantly providing enough antegrade blood flow when tackling the complex lesions in tortuous anatomy.

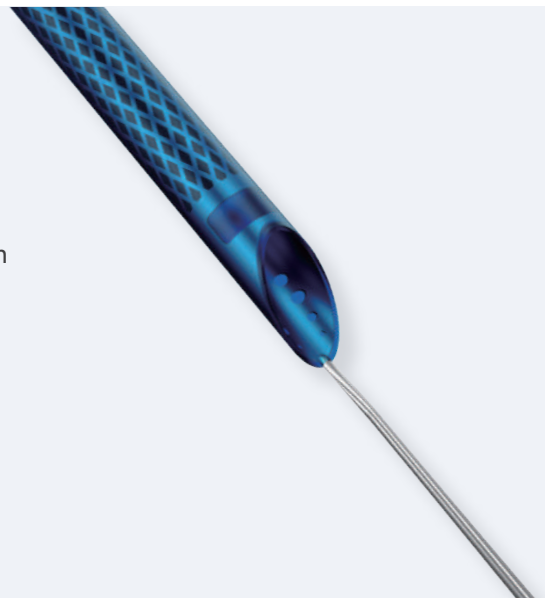

## True one piece design provides safer operation support

- Double welded design to connect tighter for safer transportation

## 35cm rapid exchange section

- Facilitating stent delivery across long lesion
- Reduce resistance during delivery

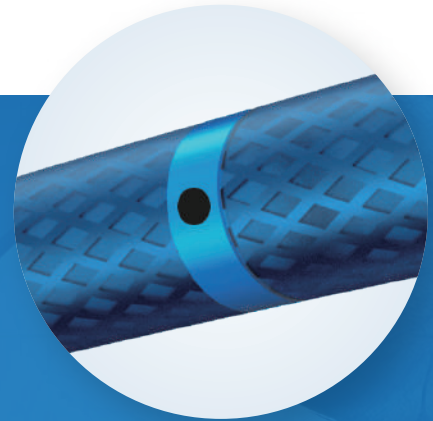

“ The **Expressman™ Guiding Extension Catheter** can provide backup support for advancing balloon cross the lesion, even deep inserting into diffused and small distal coronary arteries and the pressure there is still maintained, avoiding myocardial ischemia”.

— Prof. Roberto Garbo

Director of CTO and complex PCI Program  
Maria Pia Hospital, GVM care & Research, Italy

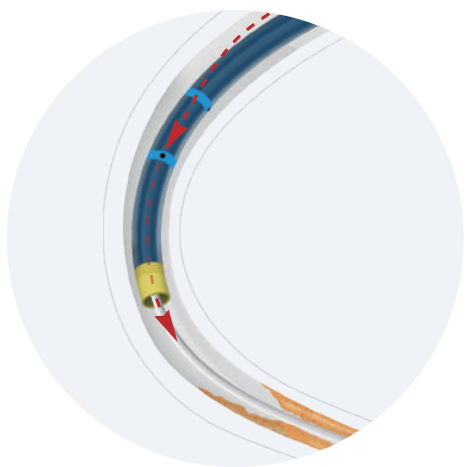

## UNIQUE SIDE HOLES DESIGN FOR YOUR COMPLEX PCI PRACTICE

To provide antegrade blood flow even in the distal coronary artery

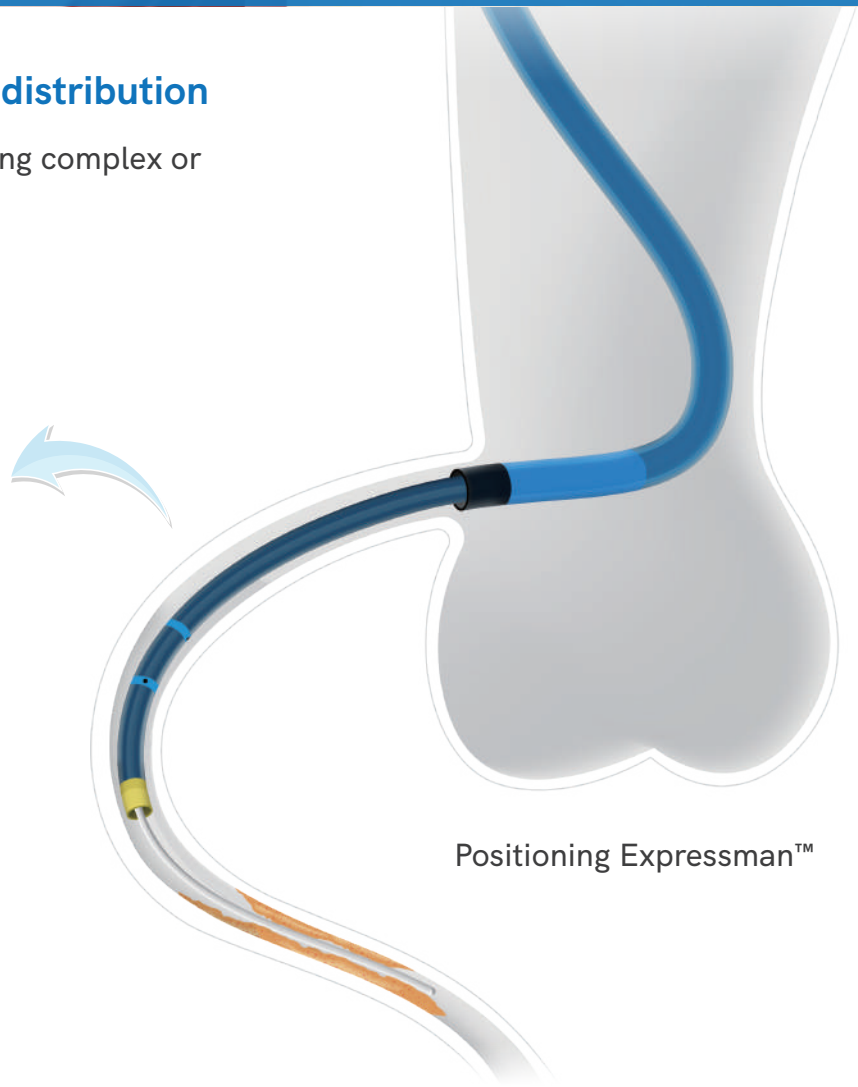

### 4 side-holes in 90° spatial distribution

- Auxiliary pathway while treating complex or distal long lesion

Positioning near by CTO lesion

Positioning Expressman™

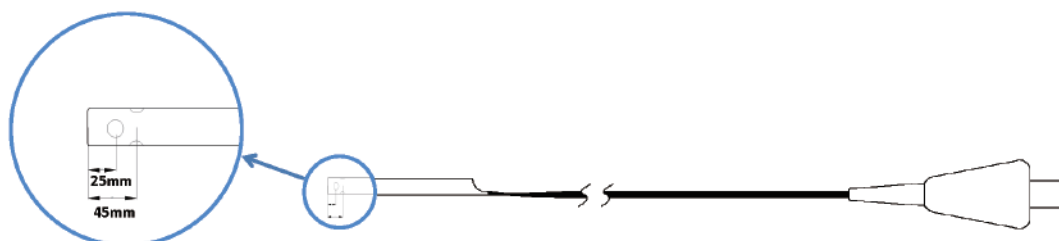

## ORDERING INFORMATION

REF	French size	Effective length (cm)	I.D.	Guide segment (cm)	Guiding catheter compatibility
20405001	4F	150	0.050"	35	5F
20505601	5F-4F	150	0.058"-0.050"	35	6F
20505603	5F	150	0.056"	35	6F
20556101	5.5F	150	0.061"	35	6.5F
20606601	6F-5F	150	0.066"-0.058"	35	7F
20606603	6F	150	0.066"	35	7F
20657101	6.5F	150	0.071"	35	7.5F

\* Without side-hole.
